The Canfield grammar school bas ketball five defeated the Austintown high school team at Austintown the other night by a score of 64 to 3. The victors have lost only one game this season and that was played under handicapped conditions.

Alex McMaster, who is employed at Marquis, came here from Youngstown Wednesday evening, full as a tick. He was placed in the lockup. Thursday morning Mayor Jones fined him \$2 and costs, a total of \$4.45, and this time Alex had the money to

-G. C. and H. C. Reed, who conduct a dairy on the southern border of the village, own a three-year-old heifer that during the month of January gave 1,088 pounds or 128 gallons of milk. Is there a farmer in the county who can beat that record on winter feed?

-It was Roy Fink of this township who was operated upon for appendicitis in the Youngstown City hospital instead of Curtis Cramer, as announced in last week's Dispatch. Mr. Cramer is very glad that it was not necessary for him to undergo a surgical operation, as is the Dispatch, which is also pleased to say Mr. Fink is recovering nicely.

-Harry Cronk of Cleveland and Miss Lyda May Bennett were united in marriage Thursday evening at the home of the bride's parents in Elizabeth, Pa. The groom is a son of Mr. and Mrs. W. A. Whitman made a short address at the luncheon and several of the guests also spoke.

HELP TELEPHONE OPERATORS

Due to the installation of the auto matic telephone service in Youngs town last Saturday, an addditional burden has been placed upon the loc-al operators temporarily by reason of the fact that the automatic ringing device on the local switch board has not been put in commission and has necessitated the abandonment of one of the three trunk lines to Youngstown. The switch board has been equipped for three additional lines, however, which the company hopes to have in operation within a short time Local patrons will greatly aid the operators if they will look up in the directories recently distributed, the Youngstown numbers (all of which have been changed) before making a call, as the operators, with the add tional labor required, have no time to look up numbers and will hereafter require that number be furnished. Aid the local operators by calling by

The rotation period of Neptune unknown, as there are no visible markings on its surface by means of which this period can be determined. How-ever, as long ago as 1883 Maxwell Hall, of Jamaica, observed fluctuations in the brightness of the planet, as compared with that of two stars in the same field of the telescope, and com-parisons extending over a fortnight led him to assign a period of about 7 hours, 55 minutes as the interval between successive maxims of brightness and hence presumably as thep lanet's rotation period.

Town Gets Fortune for Schools. Winchester, Va.-This little city of ,000 in the Shenandoah Valley has a fund of \$1,500,000 for education because it was once kindly to a lonely old man-Judge John Handley, millionaire, of Scranton, Pa., once a resident of Washington, who died without heirs and left his estate in trust for Winchester.

Handley felt unkindly towards Scranton and the North. He was an admirer of Lee and Stonewall Jackson. He came south to learn more of them. He grew into the heart of Winchester and Winchester into his.

Having accumulated a small amoun of money, Judge Handley invested in coal land, which made him rich. Eventually he visited friends near Winchester and developed his extensive acquaintance with the prominent residents of this southern section. He also gained a wide knowledge of the surrounding country, which interested him as the scene of many of Stone wall Jackson's experiences.

At his death it was discovered that his first bequest was \$250,000 for the library. This was built at a cost of \$150,000. The rest of his fortune he willed to the city to be held in trust for twenty years, at the expiration of which period the fund is to be used for the erection of schools for the

Boy's Chase Leads Way to Gold Martinez, Cal.-A tiny terrified lizard, anxious to escape pursuit, was the direct cause of the discovery of a cache of gold coin and nuggets, apparently buried in the foothills many years ago by some early miner, who died without disclosing his hoard. The treasure is estimated at about \$1000, and was found by George MacKenzie, year old son of Superior Judge A. B. MacKenzie, who was pursuing a lizard, which ran into a hole where the money and nuggets were hidden. More than \$600 was in \$20 gold pieces of the date of 1862.

According to Judge MacKenzie, who accompanied his son to the hiding place, the wealth was originally bur ied in a tin can, which had rusted away. The coins were without the customary "In God We Trust" morto, and are believed to be worth consider ably more than their mint value, according to coin collectors.

York and Willis of this-with Hon. Myron T. Herrick, ex-governor and exambassador to France, the Hon. Phill; Pitt Campbell of Kansas, Cooper, Sul livan and Gilmer and other stars too numerous to mention-senatorial and even presidential timber-there was surely abundant reason for unusual fervor, feasting and festivity. a great day and great night for the gentlemen of the G. O. P. and some onsiderable boom for Youngstown as a political—Republican—capital, as well as center of iron and steel, mixed population and continuous, perennial official candidates. The eclat of the vent was equal to the enthus'asm. hough this is Thursday some devoted Republicans claim yet to hear Monday evening's cheers and ovations echo or reverberate. About the banquet board the feast of reason and flow of soul were uninterrupted and edifying. The fare, though satisfying, was a mere incident. Where aspiration, mere incident. Where aspiration, great ambition, is paramount, as last Monday evening, who the devil gives a row of brass tacks for such vulgar. plebian stuff as kitchen sustenance? What's oysters, salmon, trout, saddles of mutton, squabs, or quail on toast even, compared with proficient and impassioned oratery? And of eld quence there was a rich abundance to have delighted Demosthenes and Cic-In Ohio there has seldom been such symposium, and Youngstown is gratified and grateful she was the site or scene so favored and distinguished. Since the East Youngstown riots here has been much school or educational agitation. It is felt in some sec-tions, if not all over town, educators

and other worthy citizens have sadly neglected the foreign element, though it does seem to some the foreign element has very persistently neglected itself. With the very many public and other schools here, missions, Y. M. C. A. advantages, truant officers, rigid laws touching school attendance, and so on and so forth, if children, either native or foreign, are not being educated, it would appear not to be due to lack of facilities, accommodations, or officials. Much consideration has een locally accorded the Gary system, Gary having recently been visited and the system investigated by Schools Supt. N. H. Chaney, whose return was followed by his much-regretted illness. Last Friday night in the Up-to-Date club the Gary system was pelted very much as a yellow dog out of house or home, or bones. Editor S. G. Mc-Clure was about the only one to give a good word for Gary, which was dis cussed by A. L. Button of Rayen, Supt. Campbell of Niles, M. L. Bur-ries of South High, E. L. Miller, W. H. Dote, F. F. Herr, W. E. Severence G. Howard, and the way the most of them tore in Gary suggested an animated cage of wildcats. It was said he Gary school is a school of fads. If true, it is not, easy to see why the Gary should not go in this school. New Jerusalem, for the fad here in the schools not only gets, but has got there, Eli. The system was also denounced as expensive, painful and vicious. But perhaps the hottest utter ance here on education was a publish ed letter from Attorney Theodore A. Johnson, printed last Friday. Reading Mr. Johnson made one recall how a ertain far western gentleman "Went for that Heathen Chinese," 'Mr. Johnson reprobating "the theory that we noderns must sweep aside the old hings-old methods and many of th subjects heretofore used and taught in the public schools," saying among other things with the hickory bark on The talk of putting aside the metaods and experience of the past in ord-
